

Safari Checklist

Recommended Items and Advisory Notes

Items

Binoculars

Good camera with zoom lens and extra batteries (or charger)/ extra memory card

Small day pack to put items in from your camp

Lightweight trousers/shorts (ideally ones that convert between the two)

Light jacket or jumpers for evening use

Sunglasses with good UV protection

Sun Hat - ideally with a wide brim to cover forehead, back of neck and ears

Sun cream - high factor

Wet wipes / hand wipes.

Head torch (recommended) or good flashlight to find your way around at night when on camps

Mosquito repellent - minimum 50% DEET and bite / sting relief cream

Flip flops (if on a camping safari using outdoor showers)

Light shoes (closed) such as canvas or trainers

Quick dry towel (if on a camping safari - not needed for lodges/tented camps)

Swimwear (if staying in Lodges)

Items of a personal nature - cosmetic / medical.

Advisory Notes

- Try to travel light especially if your tour is combined and you hope to buy souvenirs.
- Avoid wearing the colours black and blue as this attracts tsetse flies
- Good safari colours are those such as khaki / beige / stone / jungle green so as to blend into the environment. Dust/dirt also doesn't show up as clearly on the clothes.
- Cover up in the evenings with long sleeved tops and trousers / socks if you are **outside** so as to reduce risk of mosquito bites.
- The temperature drops when staying on the Ngorongoro Crater rim so you should pack warmer clothing for this eg. Fleece top
